AGENDA

- **Feedback from the client:**
 - More detailed feedback for week 3 submission - what should we do to improve for the future project progress.
 - Need to update mockup (wireframe) - add age verification, add user preferences part.
 - Need to clearly mention which member did what tasks in document.
 - Need to identify each tasks' status ; successful? on going? move on to next sprint?
- **DONE:**
 - Moon: Documented team meeting note, created a wireframe for sprint 2, setup new project website workspace and create a index page.
 - Xin: Researched on reference sources and design aspects.
 - Jimin: Fixed PBI for new project topic, drew a use case diagram.
 - Matt: Researched on MySql database and set up for new project.
 - Morgan: Researched and created design documents (UML), decided a website name (with everyone's approval) - D8Finder (date finder)
- **TO DO:**
 - Moon: Add more field in registration form, document meeting minutes and create a wireframe for sprint3.
 - Jimin: Update use case diagram, add age verification, update PBI.
 - Matt: Add find Id / password.
 - Morgan: Add email verification.
 - Xin: Change the website logo, edit some text, redesign find id/password page layout.
