AGENDA

- **Individual task progress :**
 - Xin : working on index page, planning to finish tonight.
 - issue: try to use the php create the index page but it does not work so only work on creating the static page now.
 - Setting up C9 account is not available for me because it is not accept creating a new user anymore. Should create AWS account and work on AWS C9. Currently, team C9 is on old version so we need to discuss about this issue in this week's class.
 - Moon: working on wireframes, planning to finish before this Friday's class.
 - issue: none.
 - Matt: working on how to make a php/sql login and look at how to make pure php login. Planning to finish it within 2 days.
 - issue: none.
 - Morgan: working on the design diagrams, refreshing my knowledge of the documents, what to include, how they're laid out, etc.
 - issue: none.
 - Jimin: pretty done for registration however need some changes because it uses txt file not sql.
 - issue: not enough knowledge of connect between SQL and PHP
- **Team tasks for everyone:**
 - Keep document/tracking on Trello board.
 - Communicate regularly regarding any team issues.
 - Working on coding in C9 group space.
 - Keep writing down individual weekly timesheet.
 - Keep working on individual task for sprint1.

- **Individual tasks for each member this week:**
