AGENDA

- **DONE:**
  - Jimin: change password, create sql for getting matched user info (100% match of Age, city, gender) (done)
  - Moon: retrieve current logged in user data from db, implemented pagination function to show each matched (by preference) user info, created wireframe for sprint6. (done), work on algorithm phase 2 (in progress)
  - Xin: Still fixing the webpage structure issues and adapt the website. Improving the PHP skills, did some local project. and i put the index.html in php form. (done)
  - Matt: email part of the forgot password and implemented it. (done)
  - Morgan: 90% of integration of email validation system (in progress)

- **TO DO:**
  - Jimin: create function update user info, doing algorithm with Moon.
  - Moon: keep working on matchmaking algorithm phase 2 (occupation, education, habit) with Jimin.
  - Xin: improving the php skills and implement the the html documents in php form. Fix the website pages as well.
  - Matt: look at how to make a message between users
  - Morgan: Finish the email validation off, Start work on messaging system.

- **Obstacle**:
  - Jimin: lack of knowledge of php and javascript. Need some training. Issue faced in PHP and Javascript, header does not work with in JS code. If can not fix before Friday, function dual slide age bar will be determinate.
  - Moon: bit struggled with showing each user info (use for loop and next button) so I changed the way to using pagination instead.
  - Xin: keep improving on php, Mysql.
  - Matt: lack of knowledge on topic.

- ○ Morgan: Issues reworking my code to fit the working code. I've also just noticed that I can't log in to the phpmyadmin.

- **Note:**
  - ○ Morgan's accessing phpmyadmin issue was fixed, it was due to wrong password and server problem.
